Hon. T. Dwight Thatcher, state printer, who delivered an addre s before the convention last night, and which will be found elsewhere, made us a cull yesterday. His subject, "The relation of the press to public sanitation," while a new one, probably, at least an unusual one, was handled in that scholarly and thoughtful manner for which recorded in the office of the register of deeds Mr. Thatches is so justly famed throughout the state. The fact is, no subject in his hands can fail of proving entertaining and

> Dr. Tucker of Derby, who has just returned from Wyoming, Washington, Oregon, Utah, Idaho, Montana, Colorado, and the entire west, a trip consuming some five or six weeks, was in the city yesterday. He 100 says he saw some pretty valleys and countries, circumscribed, but when one gets right down to the facts the Arkansas valley is hard to equal, let alone beat. He found places whose climate seemed delightful, and again others with rich soils, etc., but no place taken all in all to compare with the Nile of America.

Drs. Schenck of Osage City and Redden of 425 Topeka, two prominent members of the state board of health who are attending the Sanitary Convention, called vesterday afternoon to give the editor of the EAGLE a good natured but sound going over for not having aroused a little more interest touching the impor-

1400 tance of the convention now in session. We pleaded guilty, but excused our people on the ground of a great rush of business and a sudden advance in the price of suburban 150 property owing to the news that Gould had bought the Arkansas Valley railway. The truth of the matter is, Wichita will have to 2500 experience a little sickness before she will take the proper interest in sanitary move-
